Multi T Trainer

Invu

↑ Our dental hygienist Aya ↑
During brace treatment
she wears lingual braces CLIPPY L
on her upper set of teeth
and labial braces Invu
on her lower set of teeth.

You can have an orthodontic consultation
free of charge.

We are happy to offer the medical information of
our orthodontic treatment.

Feel free to ask our general dentists or reception staffs!

The preventive health care with Trainers

Hi ☺ My name is Ushi.
I am being treated
with the braces.

This is my
appliance ☆
I use this
everyday ☺

My teeth are being
cleaned and will
become white and
bright ☀ It will prevent
cavities ♥

Wow ☺ That's a
nice appliance ☺
I wished I knew
this long time
ago ☺

Trainers will help the natural growth of your jaws and the development of dentition with light force.

Using Trainers can prevent the worsening of teeth alignment and tooth extractions for orthodontic treatments.

You just use Trainers only at home, so they will not influence your school life at all.

One of our staff' s daughter, Mary had Trainers for 5years.
